The list comprises relevant nutritional components only.

Values are calculated based on the average of product specifications. In those cases where only a minimum or a maximum value specified, these values were taken respectively.

The EU column lists the nutritional values in accordance with Regulation (EU) N1169/2011 on food information to consumers.

The US Column lists the nutritional values in accordance with code of Federal Regulations (CFR 21).

The Japan column lists the nutritional values in accordance with the Japanese Legislation. The Energy values may differ per region because of different calculations.
