

Verklaring van overeenstemming voor materialen en voorwerpen bestemd om met levensmiddelen in contact te komen¹

Déclaration de conformité concernant les matériaux et des objets destinés à entrer en contact avec des denrées alimentaires ¹

De fabrikant, of zijn in de Gemeenschap gevestigde gevolmachtigde

- Le fabricant ou son fondé de pouvoir établi dans la Communauté :

Naam fabrikant - Nom du fabricant : *Luxeverpakkingen De Coster*

Volledig adres - Adresse complète : *Industriepark 1006 - 3545 Halen*

Verklaart dat het hieronder beschreven product - Déclare que le produit décrit ci-dessous :
producten met de codes - produits avec les codes :

pral r 10, pral r 15, pral r jum 15, pral r 20, pral r jum 20, pral r 25, pral r jum 25, pral r 30, pral r jum 30, pral r jum 35, pral r jum 40.

PVC doosjes - Boîtes pvc :

In overeenstemming is met - Est conforme aux dispositions :

This material is in compliance with the relevant requirements set out in Regulation (EC) No 1935/2004 under intended and foreseeable use, Art.3; Art.11(par. 5); Art.15.

Traceability as defined in article 17 of this Regulation is compliant with the Industrial Guidelines on traceability of materials and articles for food contact –part 4: traceability applied in the plastic chain.

This material is manufactured according to good manufacturing practice as set out in Commission Regulation (EC) N° 2023/2006.

This material complies with the compositional requirements set out in Chapter II – section 1 of Regulation 10/2011 (Authorized substances) and following amendments up to Commission Regulation (EU) N° 2023/1627 of 10 August 2023.

Substances used in manufacturing of this product, which are not yet regulated by EU Directive, comply with National Laws or Recommendation of the Council of Europe or article 3 of the Regulation (EC) N° 1935/2004.

Potential SML of those listed and any other substances has been tested or calculated by screening approach, overestimation of migration content of the substance in the material applying the worst case calculation.

For information concerning substances contained in the other minor ingredients and/or dual use additives we are dependant upon the willingness our suppliers to provide the necessary information to us.

Onder de volgende gebruiksomstandigheden - Dans les conditions d'utilisation suivantes :

- These are suitable for contact with all types of foods.*
- any long term storage at room temperature or below, including heating up to 70°C for up to 2 hours, or heating up to 100°C for up to 15 minutes. The overall and specific migration limits of metals and primary aromatic amines (annex II of Reg. (EU) No 10/2011) are respected in accordance with the usage conditions above mentioned.*
- Tests have been carried out on film samples 0.5 dm² size. To confirm the compliance to the DM 21/3/73 requirements, a % transmittance after migration into simulants have been carried out. All results obtained confirm the compliance to specifications set out in the DM 21/03/1973.*

Plastic materials and articles shall not transfer their constituents to food simulants in quantities exceeding 10

Goud bodemkarton - Carton doré pour le fond :

In overeenstemming is met - Est conforme aux dispositions :

Compliance with Framework Regulation 1935/2004 and Commission Regulation 2023/2006.

Compliance with Commission Regulation EU10/2011 on plastic materials and articles intended to come into contact with food as amended and corrected by Commission Regulation EU1183/2012.

Compliance with CEPE Exclusion List for Printing Inks and related products, 8th Revised Edition, November 2012.

Directive 94/62/EC: Heavy metals (Pb, Cd, Hg, CrVI) are less than 100ppm total.

The board used in the construction complies with the requirements of BfR XXXVI.

Onder de volgende gebruiksomstandigheden - Dans les conditions d'utilisation suivantes :

- *Coloured film/board laminate direct packaging component supplied for conversion into chocolate boxes. Store in cool conditions. The packaging material includes coloured film in its construction and is not suitable for acidic food products or for use in microwave ovens. For food contact use – not to be consumed.*
- *The specific migration limits have been verified by calculation or by tests on representative films according the regulation 10/2011/EU, 10 days/60 °C (on unmetallized side), with ratio film surface/mass of food 6 dm²/kg for all types of food.*
- *Representative films have been submitted to overall migration tests according the regulation 10/2011/EU, OM2 and respect the overall migration limit (10 mg/dm²) for all types of food.*
